PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code §413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Use of the Fee Guidelines*, effective May 16, 2002 set out the reimbursement guidelines.

This request for medical fee dispute resolution was received by the Division on May 16, 2005. Pursuant to Division rule at 28 TAC §133.307(g)(3), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, the Division notified the requestor on May 24, 2005 to send additional documentation relevant to the fee dispute as set forth in the rule.

- 1. For the services involved in this dispute, the respondent reduced or denied payment with reason code(s):
 - F-Fee guideline MAR reduction.
 - N-Not appropriately documented.
 - 877-999-Report necessary for reimbursement. Please resubmit with appropriate report.
 - 885-999-Review of this code has resulted in an adjusted reimbursement of \$3,354.00.
 - 885- Review of this code has resulted in an adjusted reimbursement of \$0.00.
 - 900-Based on further review, no additional allowance is warranted.

- 968-001-Copy of invoice required for review.
- 975-640-Nurse review in-patient hospital/facility bill.
- 45-Charges exceed your contracted/legislated fee arrangement.
- 5-The procedure code/bill type is inconsistent with the place of service.
- 893-001-Upon further review. Additional payment is warranted \$684.34.
- 900-O-Denial after reconsideration. Based on further review, no additional allowance is warranted.
- 975-410-Copy of provider's invoice used to determine reimbursable amount.
- W1-Workers' compensation state fee schedule adjustment.
- 2. The Respondent raised the issue of a PPO contract; however, a review of the submitted EOBs does not support a PPO reduction was taken. The respondent did not submit a copy of a contractual agreement to support this EOB denial; therefore, the disputed services will be reviewed in accordance with applicable Division rules and fee guidelines.
- 3. This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 TAC §134.401(c)(5)(A), effective August 1, 1997, 22 TexReg 6264, which requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate. Review of box 67 on the hospital bill finds that the principle diagnosis code is listed as 824.8. The Division therefore determines that this inpatient admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 Texas Administrative Code §134.1 and Texas Labor Code §413.011(d).
- 4. The requestor asks for reimbursement under the stop loss provision of the Division's *Acute Care Inpatient Hospital Fee Guideline* found in Division rule at 28 TAC §134.401(c)(6). The requestor asserts in the position statement that "Per Rule 134.401(c)(6)(A)(i)(iii), once the bill has reached the minimum stop-loss threshold of \$40K, the entire admission will be paid using the stop-loss reimbursement factor ('SLRF') of 75%." Division rule at 28 TAC §134.401(c)(6), effective August 1, 1997, 22 TexReg 6264, states, in part, that "The diagnosis codes specified in paragraph (5) of this subsection are exempt from the stop-loss methodology and the entire admission shall be reimbursed at a fair and reasonable rate." As stated above, the Division has found that the primary diagnosis is a code specified in Division rule at 28 TAC §134.401(c)(5); therefore, the disputed services are exempt from the stop-loss methodology and the entire admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 TAC §134.1.
- 5. Division rule at 28 TAC §134.1, effective May 16, 2002, 27 TexReg 4047, requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Workers' Compensation Act, §413.011 until such period that specific fee guidelines are established by the commission."
- 6. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
- 7. Division rule at 28 TAC §133.307(g)(3)(C)(iv), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to send additional documentation relevant to the fee dispute including a statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the submitted documentation finds that the requestor did not state how the submitted documentation supports the requestor's position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(g)(3)(C)(iv).
- 8. Division rule at 28 TAC §133.307(g)(3)(D), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement." Review of the submitted documentation finds that:
 - The requestor's position statement states that "Per Rule 134.401(c)(6)(A)(i)(iii), once the bill has reached the
 minimum stop-loss threshold of \$40K, the entire admission will be paid using the stop-loss reimbursement factor
 ('SLRF') of 75%."
 - The requestor does not discuss or explain how payment of \$8,782.87 would result in a fair and reasonable reimbursement.
 - The requestor seeks reimbursement for this admission based upon the stop-loss reimbursement methodology which is not applicable per Division rule at 28 TAC §134.401(c)(6).
 - The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement.
 - The Division has previously found that a reimbursement methodology based upon payment of a hospital's billed

charges, or a percentage of billed charges, does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the *Acute Care Inpatient Hospital Fee Guideline* adoption preamble which states at 22 Texas Register 6276 (July 4, 1997) that:

"A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources."

- The requestor does not discuss or explain how payment of the requested amount would satisfy the requirements of Division rule at 28 TAC §134.1.
- The requestor did not discuss or support that the proposed methodology would ensure that similar procedures provided in similar circumstances receive similar reimbursement.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

9. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307(g)(3)(C), and §133.307(g)(3)(D). The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.
